

11.16.18

Nutrition shouldn't be a phase
It's a whole lifestyle too
It helps prevent the kinds of things
That hurt your cats (and you!)

Did you know many kitties
Can have crystals in our pee?
They make us bleed and hurt so bad
It's awful, believe me!

Our food can have a huge effect
On these crystals' formation
A prescribed diet can prevent
This painful situation

Kidney problems too can be
Prevented with our food
This helps us live out all 9 lives
And live them better too!

Allergies and weight control
Are big concerns as well
But good news - diet helps here too
To improve and manage health

The food we eat can be the key
To stopping pain and strife
Ask Doc how you can help ensure
Your cat's long and happy life!

Hi Folks! This is Raptor reporting live from 1809 Magazine with more nutrition knowledge! Food can be a wonderful and pill-free way to prevent the kinds of diseases and chronic conditions that strike fear and misery in the hearts of kitties everywhere - come on in to receive personal nutrition counseling from Doc to help figure out what diet suits your feline friend best!

Over and out,
Raptor 🐾🐾
