

9.14.18

It's the start of the season  
And as I've been told  
All throughout New Orleans  
We all bleed black and gold!

We've been loyal fans  
Long before 2009  
And we'll cheer on our Saints  
Til the end of all time

Last year we were close,  
This year's our chance to prove  
You can flood us, or judge us  
But still we push through

Coming back stronger always  
Than we were before  
You may win the battle  
But we'll win the war!

So let's root for our boys  
And our city at that  
Cats and humans alike  
Give a cheer of WHO DAT!

Happy start to football season folks! This is Raptor reporting from your New Orleans Cat Practice where we're ramping up for the season. Our boys had a rocky start this year, but in classic Saints fashion I know they'll succeed after many nail-biting, fur-pulling wins. But after all, it wouldn't be football without those edge-of-your-seat games to remind us why we love to watch in the first place! Doc and all of the Cat Practice staff wish you a wonderful start of the season, and LET'S GEAUX SAINTS!!! 🏈🏈🏈
